---

Good Afternoon Terry,

I just heard from Hector from your city public works department, and cameras 1, 6, 12, 20, and 28 are on CalTrans Poles, and we will need to move them. CalTrans will not allow any law enforcement surveillance cameras on their poles-no exceptions.

Can you please provide alternates? Do you want to hop on a call this coming Tuesday to pick alternate locations/poles?
Best Regards,

Jesse Mund

Good Morning Lt Flaa and Sara,

I have looped in Will Warren and Hector from my installation and customer team to assist with permitting from our end. If you reply with the permitting requirements here, it will get to everyone who needs them. Thanks again!

Best Regards,

Jesse Mund

Ms. Peet,

Thank you very much for your assistance with this process. As we discussed during our call, Jesse Mund from Flock Safety is our company rep. In this email chain, you will find an attachment with the system specs and a link to a map of the various locations we (SMPD) have recommended for LPR placement. I will be our department's contact during this process. I do believe Mr. Mund will be your contact with Flock for the approval and permitting process. I have cc'ed him in this email.

Thank you very much,

**Lt. Terry A. Flaa**

**Subject:** Flock Permitting information

Terry,

Thank you for the time today and helping to make the adjustments to the deployment plan:

https://planner.flocksafety.com/public/d67836cc-b85d-4204-ac2b-0d1624e7266f

I am submitting this for review to my team to evaluate angles, solar, LTE carrier, and overall positioning.  If they have comments that require changes I will let you know.

Here is some technical information about our cameras and solar panels for your public works department.

Best Regards,

Jesse Mund
